

# FLEX 360®

## FLEX 360®

REVOLUTIONIZES THE ART OF CUTTING BY PUTTING IN YOUR HAND A SCISSOR THAT FOLLOWS YOUR EVERY MOVEMENT.

The Patented Flex Thumb System not only rotates

### 360°

in 1 direction

but is the **ONLY** scissor with a thumb that rotates and flexes

## back & forth,

*side to side, up & down*

ALL AROUND

without restrictions

or stress on your

wrists, elbows

or shoulders.

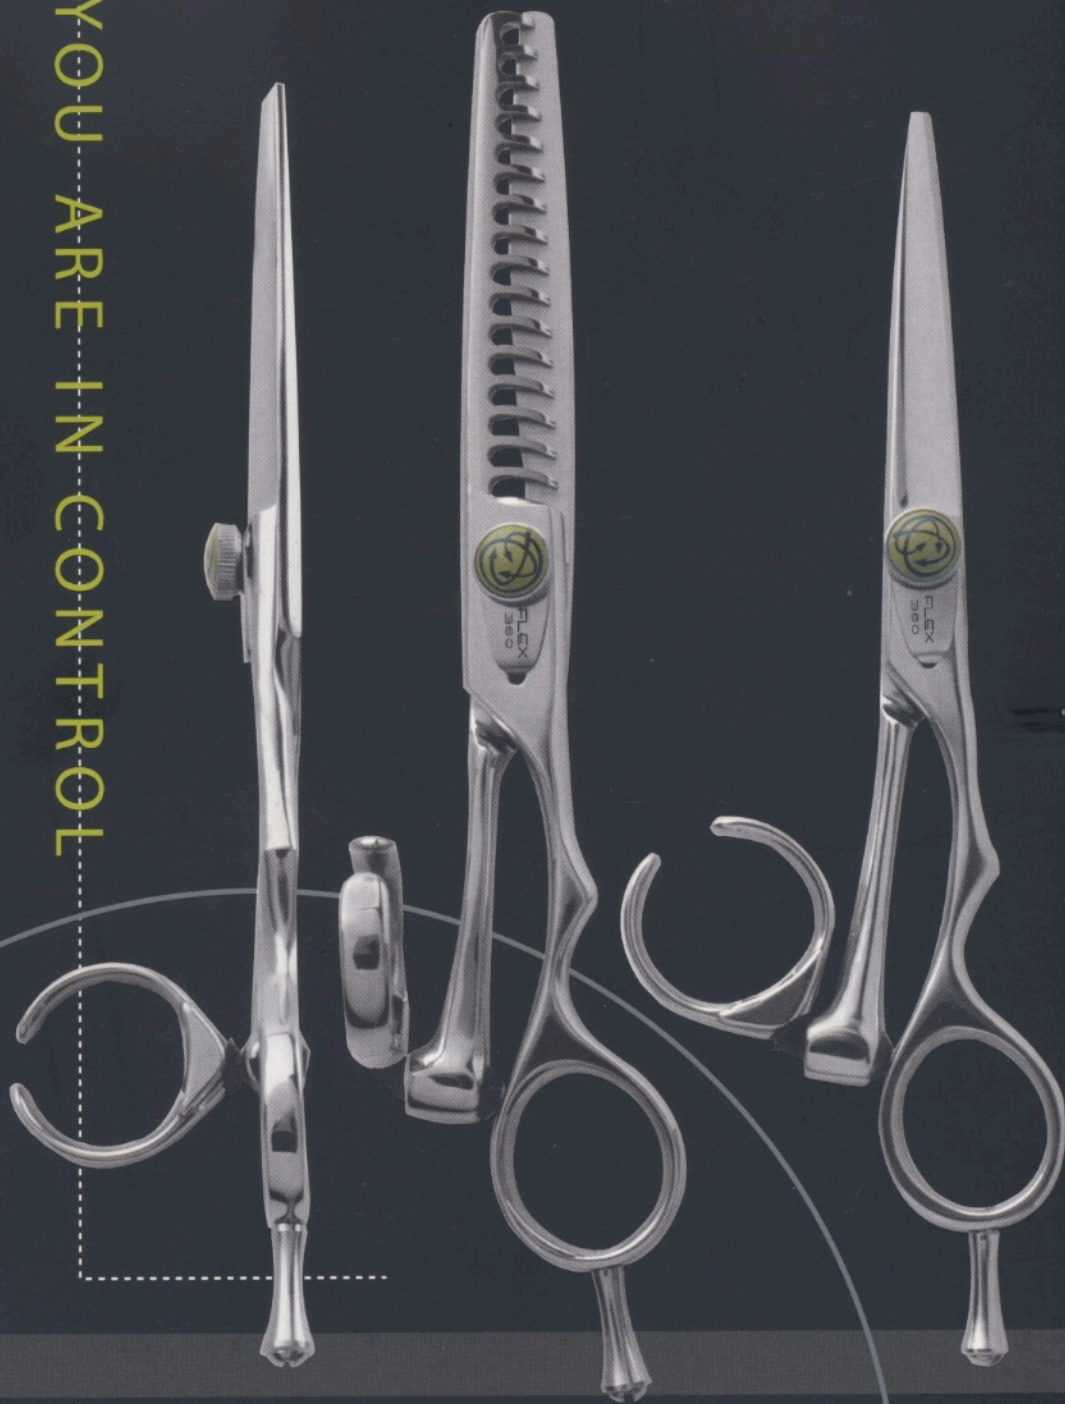

Finally, true

comfort

is not out

of reach.

YOU ARE IN CONTROL

## REVOLUTIONARY FLEX ROTATION

# cutting

FREEDOM

# FLEX 360®

- offset grip for ergonomic, relaxed hand comfort
- double insert rings for finger and thumb holes to assure a custom fit
- reversible tension system for right and left-hand compatibility
- rotating, removable fingerrest

## 5" cutting #F-500

Perfect for detail and slide cutting when hair is held between fingers.

## 5 3/4" cutting #F-575

More efficient cutting power for shear-over-comb, bobs, one-length cuts, slide cutting or cutting against the skin.

## 5 3/4" 16 tooth texturizing #F-160

90% of all styles require some weight and bulk removal in the interior or fringe areas. Because the F-160 removes only 20% of the hair, it functions as a superb and efficient point cutting tool.

### SERVICE AND WARRANTY:

Flex 360 carries a Lifetime Warranty against manufacturing defects and shear parts damaged or worn under normal use, as well as a One Year Edge Warranty against dullness, nicks and/or accidental damage. Roth Shear Service Center provides the best quality service for all of your shear service and sharpening needs. And, you'll feel confident to know you are sending them back to the master craftsmen who designed and tooled Flex 360 Shears. See Service and Warranty Card for more information about our fast and reliable shear service.
